

# MARC JACOBS

June 16<sup>th</sup> 2016

To whom it may concern,

This is my personal recommendation letter for Robyn Dombey. Robyn has been assisting the collection team and myself since April 2016 with the Resort 2017 collection.

During this time she worked independently and as a part of the team to develop work for many styles. This involved embellishment such as heat transfer crystal techniques, fabric manipulation and working on the mannequin to trial placements.

Her responsibilities also included, but were not limited to, managing interns, working with PLM, creating technical drawings and communicating with vendors.

I have found Robyn to be talented, reliable, and dedicated. She is a conscientious employee and has demonstrated enthusiasm and creativity towards a variety of projects and her contributions for the company have been valuable.

Please contact me if you have any further questions.

Sincerely,

Jennifer Kim  
Senior Designer - Ready to Wear Wovens
